In celebration of the 100th Anniversary of the U.S. National Parks

Narrated by Academy Award® winner and conservationist Robert Redford, ***National Parks Adventure*** is a dazzling celebration of America's greatest natural wonders. For 100 years, such spectacularly wild and beautiful places as Yellowstone, Yosemite, the Everglades, the Redwoods and Glacier National Park have been a living monument to the nation's vast and untamed wilderness. Now, captured with IMAX® 3D cameras and shown in full glory on the world's largest screens, audiences will experience these natural treasures in the ultimate "off-trail" adventure through the mountains and canyons of America's great outdoors.

- Released to coincide with the **U.S. National Parks Centennial**
- Featuring more than **30 iconic national parks**
- **Multi-million-dollar partner-driven marketing program** from Expedia, Inc., Brand USA and others

"National Parks Adventure captures the stunning beauty of our wild places and reminds us these landscapes are an essential part of the human spirit,"

—ROBERT REDFORD
